

ОПЫТ

• Smart Data Hub

Technical Product Lead

Sep 2024 — Present Time

- **Retention:** Boosted 6-month Retention from 50% to 85% by shifting the product strategy toward the high-value 'A+' segment. Cultivated strong relationships with key accounts by personally presenting the long-term roadmap and aligning backlog prioritization with the target segment's needs, significantly increasing the product's business value.
- **LTV:** Increased LTV by 30% by leveraging JTBD research to solve a higher-level user problem: evolving the product from a simple analytics dashboard into a strategic decision-making tool. Developed the 'Insight Management System' — an LLM-powered Kanban board that surfaces product and marketing insights and generates actionable, context-aware recommendations.
- **Tech:** Ensured system resilience under a load of 30+ million events/day. Collaborated with the CTO to design the database architecture and complex integrations (Data APIs, Call Tracking, CRMs). Managed a cross-functional team of 10 (Devs, QA, Design), translating business requirements into technical specifications.

• CyberFinance

Co-founder, Product Lead

Nov 2022 — Sep 2024

- **Go-to-Market & PMF:** Conducted 30+ JTBD interviews and initiated a strategic pivot from a Perp DEX to a multi-chain wallet, achieving PMF and scaling to 10M users (3M MAU). Grew the team from 3 to 15 FTEs and secured funding at an \$8.5M valuation
- **User Acquisition:** Built the data stack (Mixpanel, GA, Metabase) to enable viral mechanics (story-sharing, emoji nicknames), driving sustainable organic growth of 250K users/month.
- **Operational Excellence:** Cultivated a metric-centric culture by systematically tracking product and financial KPIs for data-driven decision-making, reducing release cycles by 30%.

• Emerging Travel Group

Senior Android Developer

Feb 2022 — Nov 2022

- **Impact:** Migrated 60% of the UI to Jetpack Compose; redesigned the hotel page, increasing conversion by 5%.
- **Stack:** Kotlin, Coroutines, Flow, Jetpack Compose, MVI, Hilt, Room

• Megafon

Android Developer

May 2020 — Feb 2022

- **Impact:** Contributed to the Megafon SuperApp development and third-party service integration; drove a >100% increase in MAU by integrating MegafonTV
- **Stack:** Java, Kotlin, Coroutines, MVVM, Dagger, SQLite, JUnit, Espresso

COURSES

- **GoPractice:** Data-Driven Product Management Simulator
- **How to Create Products:** Advanced JTBD Course by Ivan Zamesin
- **ProductDo:** A/B Testing for Product Managers
